

# Spice up your data with...

## Integrated Marco Desktop

Move data, break maps! Does your GIS environment have broken data references? Need a robust and safe way

to find data, update links, or repair broken Layer Files and Map Documents? **Integrated Marco Desktop** is a comprehensive toolkit for the ArcGIS platform that addresses and resolves these issues, bringing stability and sanity to both your GIS environment and your enterprise data infrastructure.

## Integrated Marco Palette

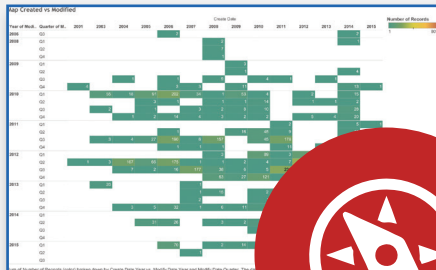

Want to have your spatial data and see it too?

**Integrated Marco Palette** provides a clean interface to access your shared and corporate Layer Files from a single location, regardless of where they are saved. Providing a quick-look at datasets and metadata, you can add selected files to your current ArcMap session for further data sleuthing.

## Integrated Marco Commander

Nearly the hottest of the **Integrated Marco Studio** apps, **Integrated Marco Commander** is built to assist Spatial Data Discovery and Data Reference Inventory. It is designed for parallel processing and server-class machines for the sole purpose of being the best Knowledge Management system that your network has ever seen.

# Integrated Marco Studio

## Integrated Marco Pro

Go Pro or go home. As you embrace Esri's newest ArcGIS platform, there are bound to be data speed-bumps along the way. **Integrated Marco Pro** is designed to find data, repair broken datasets, and even better? Convert ArcGIS Map Documents to ArcGIS Map Projects. An Add-In for ArcGIS Pro, it provides a safe haven in a stormy sea of data conversion.

## Integrated Marco Mystic

Bringing enterprise search and discovery to the web, **Integrated Marco Mystic** employs a web interface better allowing you to run the **Integrated Marco Commander** tools as well as view, search, and filter your results. Quickly combing through multitudes of Layer Files and Map Documents is just one of the enchanting pieces of this application. It also allows for the deployment of multiple instances of **Integrated Marco Commander**, offering a user-friendly environment for getting the most out of your data and your new digital team.
